

Overview of Altius IT Services

Founded in 1993, Altius IT has performed over 1,000 audits, assessments, and risk management services over a wide range of industries. Altius IT is a Certified Information Systems Auditor and Certified in Risk and Information Systems Controls.

AUDIT SERVICES

On-site Network Security Audit – we evaluate 50+ areas including technical controls (configurations, access controls, patching, logging, anti-virus, wireless, etc.), physical controls (access to restricted areas, cameras), and administrative controls (policies, procedures, security training, job descriptions, service provider agreements, etc.). More information: <http://www.AltiusIT.com/auditnetworksecurity.htm>.

External Network Security Audit – Altius IT performs a penetration test of public network/IP addresses (firewalls, routers, etc.). We evaluate your infrastructure and identify vulnerabilities that allow hackers access to your internal network. More information: <http://www.AltiusIT.com/auditexternal.htm>.

Web Application Security Audit – Altius IT evaluates a web site/web application for over 35,000 types of vulnerabilities including SQL injection attacks, cross site scripting, buffer overflow, authentication, etc. More information: <http://www.AltiusIT.com/auditwebapp.htm>.

Social Engineering Audit – using social engineering techniques, Altius IT evaluates the effectiveness of an organization's security education and awareness training. More information: <http://www.AltiusIT.com/socialengineering.htm>.

Privacy Audit – Altius IT'S privacy audit helps ensure your organization operates with transparency, providing openness and clarity to all activities concerning the capture, collection, dissemination, and use of sensitive information. More information: <http://www.altiusit.com/auditprivacy.htm>.

Risk Management Audit – Altius IT evaluates your Risk Assessment and Risk Analysis of the organization's assets, threats to the assets, vulnerabilities, likelihood of the event, and impact. If you need assistance in this area, we can create and deliver three reports: Risk Assessment Report, Risk Analysis Report, and Risk Action Plan Report. More information: <http://www.AltiusIT.com/riskassessment.htm>.

POLICIES

Altius IT Policy Collection. Over 100 policies, plans, forms, and other documents that help organizations quickly meet compliance and security requirements. More information: <http://www.AltiusIT.com/policies.htm>.

MISCELLANEOUS SERVICES

Additional Services – Altius IT also offer additional services: Mobile Application Security Audit, Load Testing (Denial of Service), Compliance Audits, etc. More information: <http://www.AltiusIT.com/services.htm>.
